Replace the chain tensioner and, if required, the timing chain
0011540300
E6x E8x E9x N47

situation
On the vehicles concerned, in individual cases, the chain tensioner may not compensate for the extension of the timing chain. Exceeding the maintenance intervals and the presence of deviations in the oil quality lead to an increased extension of the timing chain.

effect
The timing chain may wear prematurely.

vehicles concerned
E6x E8x E9x N47
According to VIN selection

Measure
1. Determine the vehicle mileage/km.
2. Depending on the vehicle mileage/km, replace the chain tensioner or use a measuring chain tensioner to determine the timing chain extension.
3. Depending on the measuring result, replace the chain tensioner or, if required, replace the upper timing chain and chain tensioner, or the upper and lower timing chain and chain tensioner.

Procedure
You must always replace the chain tensioner.
1. If the vehicle's mileage is below 75,000 km, only replace the chain tensioner.
   To replace the chain tensioner, proceed as recommended in Repair
Service Information

Replace the chain tensioner and, if required, the timing chain
0011540300
E6x E8x E9x N47

Instructions 11 31 090 Remove and refit/replace the chain tensioner piston (N47 D20 O1).
2. If the vehicle's mileage is above 75,000 km, you must also check the timing chain. For this, proceed as recommended in Repair Instructions 11 31 540 Check the timing chain for extension and replace the chain tensioner (N47 D/C K/U/O/T 0/1) and follow the instructions from the diagnostics module.
3. Depending on the measuring result for the timing chain, you must follow the instructions from the diagnostics module.
   a. Always select the field "SW27" in the diagnostics module. => Continue in the diagnostics module.
   b. Then always select the "Calk present" field. => Continue in the diagnostics module.
5. If only the upper timing chain is replaced, proceed as described in repair instructions RA: 11 31 544 Check the timing chain for extension and replace the top timing chain (N47 D/C K/U/O/T 0/1).
5. If both timing chains are replaced, proceed as described in repair instructions RA: 11 31 548 Check the timing chain for extension and replace both timing chains (N47D/C K/U/O/T 0/1).
6. Reassemble the vehicle in the reverse sequence.

Parts return (special damaged component process):
In selected cases, the diagnostics module requests that you send in replaced timing chains and/or chain tensioners for analysis.
If the diagnostics module requests that you send parts in, proceed as follows. Send back the replaced upper timing chain and chain tensioner, along with the vehicle identification number, the part number and the dealer number, to the following address for analysis as special damaged components:

BMW AG
Gewährleistungsteilezentrum GWTZ
Werk 01.01 / Gebäude 23.0
Heidemannstrasse 164
80935 Munich
Germany

German market: See PuMA measure 4811067
The recipient pays the costs for returning the parts.

Service Information

Replace the chain tensioner and, if required, the timing chain
0011540300
E6x E8x E9x N47

Send only via DHL Airfrig (DHL Express) with Account/Impex no.: 951 531 547 /
Pass by: -EX works- Attention please: The account/impex no. has changed.
Number to be used is exclusively for special parts requests.

Parts

For all vehicles

Optional for vehicles with a measured chain extension

- In the case of a measured chain extension, you must also replace the upper timing chain:

</tr>
</tbody>
</table>

- In the case of a measured chain extension, you must replace both timing chains.
  The cylinder head cover and cylinder head gasket sealing kits must be selected depending on the engine version (N47 or N47N).

Select other small parts, auxiliary and operating fluids after you have entered the vehicle identification number for the vehicle concerned from the Electronic Parts Catalogue (EPC).

**Note:**
Operating fluids required for topping up to correct levels must be billed at the net price under outside service code 04.

**Note:**
In principle, parts requiring replacement as part of a Technical Campaign are not subject to the PartsClearing process.

**Reimbursement**
Claims are subject to current warranty terms.
